

VICTORY LANE

BEFORE YOU BEGIN ...

1. Unpack the parts. Save the packing materials.
2. Match the parts to the drawings below.
3. If you have each part, put a check in the box next to the picture of the part. Look in the carton again and check all of the packing materials to make sure you haven't missed anything.

WARNING:

**CHOKING HAZARD - Small parts
Not for children under 3 years.**

DARDA™ RACERS (2)

START WIN BOX (1)

LOOP HALVES (12)

7" STRAIGHT TRACK (2)

7" CURVED TRACK (4)

14" STRAIGHT TRACK (6)

CRVD. SUPPORT TRACK (2)

FLEXI-CURVE TRACK (2)

STACKING BRIDGES (2)

LARGE BASE PLATE (2)

TRACK JOINERS (16)

LOOP JOINERS (12)

IF A PART IS MISSING OR DAMAGED ...

The store where you purchased this item does not have parts. You will get the easiest service from **Walthers**. Tell us the part(s) needed and be sure to include your name and address printed clearly. Mail to Wm. K. Walthers, Inc./ 5601 W. Florist Ave./Milwaukee, WI 53218/ Attn.: DARDA.

READ ALL INSTRUCTIONS BEFORE YOU BUILD YOUR TRACK LAYOUT!!!

USING TRACK JOINERS

Slide the Track Joiner - with the raised edges facing down - half way into the channel on the underside of the track piece. Now slide the adjoining track piece over the open half of the joiner, so that it meets the first piece. Be sure the tracks meet with no gaps.

MAKING LOOPS

Put two **LOOP HALVES** together so that the **PINS** at the top of each loop half go into the proper holes, creating a tight fitting seam between the two loop halves.

Holding the **LOOP HALVES** together, slide one **LOOP JOINER** over one end of the seam and the other loop joiner over the other end of the seam. Squeeze together to secure the joiners to the loop. **NOTE: Make the 6 loops in this set before building the track.**

FIGURE 1

STEP 1 • ATTACHING THE BRIDGE

Place **BRIDGE** on **BASEPLATE** by squeezing the bridge as shown in **FIGURE 1**. The **BRIDGE** will snap into place on the **BASEPLATE**. Repeat this step on second baseplate.

FIGURE 2

STEP 2 • CONNECT TRACK TO BASEPLATE

Using the **BUILT-IN TRACK JOINER** on the **STACKING BRIDGE**, attach one **LOOP**, facing as shown in **FIGURE 2**. Add one **CURVED SUPPORT TRACK** to the other end of the **LOOP** using a **TRACK JOINER**. Attach the **CURVED SUPPORT TRACK** to the outer **BUILT-IN TRACK JOINER** on the **BASEPLATE**, as shown.

FIGURE 3

STEP 3 • ATTACHING LOOPS

Attach **ONE LOOP** to the other open end of the **STACKING BRIDGE**. Attach the end of the **LOOP** to the **BUILT-IN TRACK JOINER** directly in front of the **STACKING BRIDGE**. **FIGURE 3**

FIGURE 4

STEP 4 • MORE LOOPS

Add a third **LOOP** to the open end of the **BUILT-IN TRACK JOINER** in front of the **STACKING BRIDGE**. Attach the other end of the **LOOP** to the outer right **BUILT-IN TRACK JOINER** as shown. **FIGURE 4**

FIGURE 5

STEP 5 • COMPLETING THE TRACK

Using the **BUILT-IN TRACK JOINERS** on the baseplate, attach one **14" STRAIGHT TRACK** to the open **CURVED SUPPORT TRACK** end, as shown in Figure 5. Attach the **SECOND 14" STRAIGHT TRACK** to the built-in track joiner on the other side of the **BASEPLATE**.

STEP 6 • SECOND HALF OF SET

Using track joiners, attach one **7" STRAIGHT TRACK**, one **14" STRAIGHT TRACK**, one **FLEXI-CURVE**, two **7" CURVED TRACKS** and one **START/WIN BOX** to complete one side of the set. See **FIGURE 6**.

FIGURE 6

NOTE: To complete the track, create a mirror image of the track as shown in **FIGURE 6**. Insert track joiners into open ends of track on Start/Win box. Connect the second half of the set to start/win box.

STEP 7 • SPEEDWAY TO FUN!

Your track is now complete. See instructions below on how to use the Start/Win Box. Place cars on track layout as shown below and you are ready to go!

DRIVERS... START YOUR ENGINES!!!

START/WIN BOX

Press down the red button on the start/win box. A Brake will emerge narrowing track so cars cannot pass. Spin flag so it faces away from the loops, parallel to the track. White spokes will cross track on both sides when flag is in proper position.

PRESS RED BUTTON

CARS IN PLACE

Load pre-wound cars into starting gate by backing into position on both tracks. Press green button to start both cars simultaneously. The winning car will spin the checkered flag to its side of track.

The stickers for this set are peel 'n' stick. Do not cover any joints with the stickers. Be sure that the stickers are smooth against the track surface as not to impede the racers.

READY, SET, GO!!!

1. Press down on vehicle body until you hear a click.

2. While still pressing down, roll vehicle back & forth until the clicking sound gets louder.

3. Lift your hand up off the vehicle while rolling forward. Watch it go!

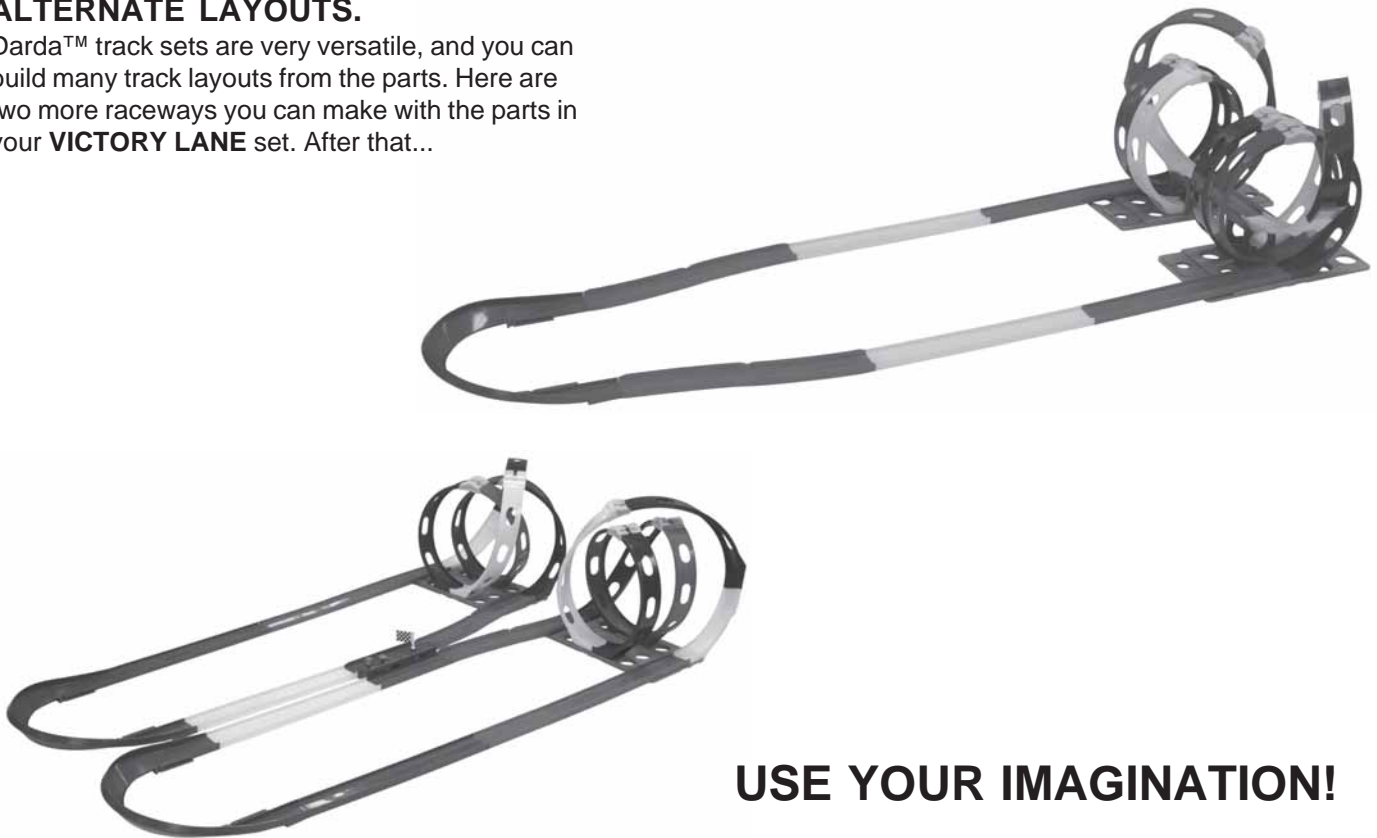

Tips

- For consistent performance position your Darda™ Racers on the track layout as shown on page 5.
- Be sure that the vehicle is fully wound by listening for the click to get louder before releasing it.
- Have fun with your Darda vehicles on or off the Darda track. For longer life **DO NOT** run on carpet.
- Replacement motors are available at your local specialty toy store; or contact Darda at the number below.

ALTERNATE LAYOUTS.

Darda™ track sets are very versatile, and you can build many track layouts from the parts. Here are two more raceways you can make with the parts in your **VICTORY LANE** set. After that...

USE YOUR IMAGINATION!

TRACK TIPS

- Read all assembly instructions carefully.
- If your vehicle has trouble making it around the track, try the following: 1) Be sure that all track seams meet and connections are secure. Track pieces must meet flush against each other where they are connected with track and loop joiners, without gaps or bumps at the joint. 2) It may be necessary to play with, adjust, or slightly bend loops in track layouts to maximize performance. Remember Darda™ track is flexible.
- Darda™ track layouts can be set up on any flat surface. While it is not ideal, your track can be set up on carpet. We do recommend dusting off the track before use so that the dust particles from the carpet do not jam the motor. We do not recommend running the vehicle itself on carpet.
- Double check your assembly instructions, if you still have difficulty we want to help!
